)	Docket No. 50-323-LR
(Diablo Canyon Nuclear Power Plant, Units 2 and 3))	

(License Renewal Application)

DECLARATION OF SUSAN SUNDERLAND

I, Susan Sunderland, declare as follows:

1. I am a resident of San Luis Obispo, California. I own a house at 6465 Corral do Piedra and have resided at this house since December, 1979 with my husband and three sons.
2. My phone number is 805 543 6783.
3. I am currently a member of Friends of the Earth ("FOE"), and have been a member for approximately thirty-four years. We joined Friends of the Earth about a year after the accident at Chernobyl realizing we had the same potential for an accident at Diablo Canyon Nuclear Power Plant.
4. Among its missions, FOE seeks to ensure that the public has an opportunity to influence the outcome of governmental and corporate decisions that affect the lives of many people.
5. My home is about eleven miles from Diablo Canyon Power Plant ("Diablo Canyon"). A friend and I are the owners and developers of an all natural body care products company. We plan to continue this business. My husband retired after forty years as a civil engineer and a grading contractor in San Luis Obispo area. My father-in-law started this business in 1948 when he moved to San Luis Obispo County.
6. All three of our adult sons live in San Luis Obispo. They are all gainfully employed and plan to stay in San Luis Obispo.

7. I am concerned that the continued operation of Diablo Canyon for an additional 20 years beyond the term of its original license will jeopardize the health and safety of my family and me and the value of our property. I am also concerned that the operation of Diablo Canyon will have an adverse effect on the health of the environment in which I live.
8. My personal health and safety and my family's health and safety will be seriously affected in the event that Diablo Canyon is damaged by an earthquake or other accident, causing a radiation leak from the plant. I do have a kidney transplant that would be compromised with any exposure to radiation or extra stress.
9. Diablo Canyon's operation without adequate assurance that its essential structures will continue to operate and that the plant can be safely shut down in the event of an earthquake caused by one of the faults near the plant poses a significant risk to my personal health and safety and my family's health and safety.
10. My husband and I own ten acres in the Edna Valley where we built our house thirty-six years ago. We are farming our ten acres and able to sell our produce at a local farmers market. This is a source of income we would lose if there was an accident at Diablo Canyon. We have an apartment on our property that is a source of income for us. The value of our home would be adversely affected in the event of an accident at Diablo Canyon and subsequent release or threatened release of radioactivity at Diablo Canyon. The value of my home will be adversely affected in the event of an accident at Diablo Canyon and subsequent release or threatened release of radioactivity from Diablo Canyon. Just the fact that our home is near a nuclear plant affects the value. The value of my business, Sharzu of San Luis Obispo, and its assets will be adversely affected in the event of an earthquake and subsequent release or threatened release of radioactivity from Diablo Canyon. One of our sons has rentals in Grover Beach (downwind from Diablo Canyon and also in Paso Robles. Both our property and our son's property would be devalued after any radiation release at Diablo. The value of our son's business, Wood Floor Pro, and its assets would be adversely affected in the event of an earthquake and subsequent radiation release.
11. My husband and I have and still do spend many hours outside enjoying the beauty at our doorstep. My husband is an avid ocean kayak fisherman. He has many friends that fish in the ocean with him frequently. My husband hunts in Morro Bay for ducks and geese

during the season. My sons surf, dive and fish in the ocean up and down the Central Coast. I have spent many years hiking the hills in Montana de Oro adjacent to Diablo Canyon. We take our dogs to the beach for a good run. They too enjoy the out-of-doors. We have been enjoying the out-of-doors as long as we have lived here, since 1964.

12. San Luis Obispo County is a destination for many tourists. My sister and her family come here in order to enjoy the relaxed atmosphere and the beautiful scenery. This county has become quite well-known for the natural beauty and comfortable climate. The Seven Sisters, (extinct volcanoes) are very beautiful to admire along scenic Highway 1. There are many biking or hiking trails from quite easy to quite challenging. There are many places to ride horses in Montana de Oro. The wine industry has become very integral to our local economy. Also, California State Polytechnic University is located in San Luis Obispo, one of the best State Universities in the State system, with thousands of students.
13. In an effort to stop the development of Diablo Canyon, I have been a member of the San Luis Obispo Mothers for Peace since 1979. Mothers for Peace are the legal interveners questioning the licensing of Diablo. I have participated in marches, sit-ins, letter writing campaigns and attended numerous NRC meetings in order to express my thoughts and opinions. We are members of the Union of Concerned Scientists, Audubon, Sierra Club and Friends of the Earth.
14. The continued operation of Diablo Canyon for an additional 20 years without ensuring that the plant can withstand an earthquake caused by the Shoreline Fault poses a significant risk to my personal health and safety, the health and safety of my family, the market value of my home and our son's homes and business and my interest in using and protecting the environment surrounding Diablo Canyon Nuclear Power Plant.

15. I authorize FOE to petition to intervene in this proceeding on my behalf. I authorize FOE on my behalf to participate in any public hearing regarding the license renewal for Diablo Canyon.
16. I strongly support the petition to intervene filed by FOE with the Nuclear Regulatory Commission regarding Diablo Canyon.

I declare, under penalty of perjury, that the foregoing information is true, accurate, and correct.
Executed on October 6, 2014 in San Luis Obispo, CA.

A handwritten signature in cursive script that reads "Susan Sunderland". The signature is written in dark ink and is positioned above a horizontal line.
